Dear Jeanette

I am pleased that we have opted for your **M2G control strategy** on our boilers at the Clarion Hotel Limerick.

Our first quarter analysis is shown below with **savings of circa 36%** based on our comparison of kWh consumption Jan – May 2007 **versus** Jan – May 2008 giving us a pay back of only **3 months** on our investment.

Jan-07	215199
Feb-07	162289
Mar-07	181550
Apr-07	121828
May-07	115159
Total	796025

Jan-08	107571
Feb-08	6926
Mar-08	181000
Apr-08	115312
May-08	98510
Total	509319

Saving kWh	286706
% Saving	36.02
€ Saving	€12,525.40
Tonnes CO2 Saved	57.34

During this time we have not experienced any negative effects in comfort levels either with our hot water or our heating.

M2G has proved to be a simple solution to help us avoid the ongoing price increases on our utilities at the Clarion.

Yours sincerely
