## **To whom it may concern**

### **Regarding M2G boiler control technology**

I'm delighted to recommend the GEM System. It has been a hugely successful system for us here at Mallow swimming complex and the owners of the swimming complex Mallow Town Council.

In the 18 months that we have had the system we have never had to get any maintenance done on the system, it has worked impeccably from the very start.

The system is very unassuming but financially it has made a huge difference to the running costs of Mallow Swimming Complex. It has contributed to a 20% saving in oil costs, which have freed up finances to be used in other areas of the complex.

In my position as complex manager I endeavour to find systems that are maintenance free and help in the running of the complex. This GEM system ticks all the boxes.

Please do not hesitate to contact me if I can be of any further assistance to you at 022-21863.
